

Haart Estate Agents - Arnold

Description:

Over the past few years, we have been busy supporting our 'haart of the Community' strategy, which focuses on building stronger links with local communities and providing support for events and charitable causes.

Quite simply, we believe that companies such as ourselves should invest in our local communities. From sponsoring local school events to charitable fetes, from local children's football teams to Premiership sides, it's about giving something back to the areas in which we live
